

Project Design Phase-II

Data Flow Diagram & User Stories

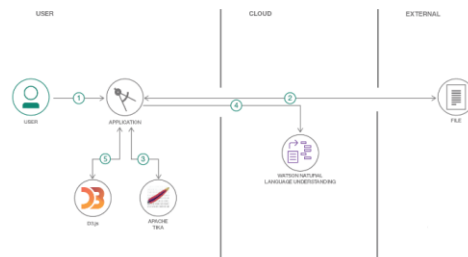

Date	13 July 2026
Team ID	SWTID-2026-7493
Project Name	BookStore
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement	User Story No.	User Story	Acceptance Criteria	Priority	Release
User	Authentication	USN-1	As a user, I can register an account.	User account created successfully	High	Sprint-1
User	Authentication	USN-2	As a user, I can log in using my email and password.	User dashboard is accessible	High	Sprint-1
User	Book Browsing	USN-3	As a user, I can browse available books.	Books are displayed	High	Sprint-1
User	Book Details	USN-4	As a user, I can view detailed information about a book.	Book details are shown	High	Sprint-1
User	Order Management	USN-5	As a user, I can place an order.	Order is created successfully	High	Sprint-2
User	Order Management	USN-6	As a user, I can view my orders.	Previous orders are displayed	High	Sprint-2
Seller	Book Management	USN-7	As a seller, I can add a new book.	Book is added successfully	High	Sprint-2
Seller	Book Management	USN-8	As a seller, I can manage my books.	Seller can view and delete books	High	Sprint-2
Admin	Dashboard	USN-9	As an admin, I can manage users.	User list is displayed	High	Sprint-3

User Type	Functional Requirement	User Story No.	User Story	Acceptance Criteria	Priority	Release
Admin	Dashboard	USN-10	As an admin, I can manage books and orders.	Books and orders are displayed	High	Sprint-3
